

IN THE CLAIMS:

All of the pending claims 1 and 2 are set forth below. The status of each claim is indicated with (currently amended). Please AMEND claims 1 and 2 in accordance with the following:

1. (currently amended) A home care system in which at least one center terminal and patient terminals are disconnectably connected to each other via a communication line through which communications of data including image data are performed,
wherein said patient ~~terminal~~ terminals are provided with a room illumination light for illuminating a room in which the patient ~~terminal~~ terminals are disposed, and
wherein said center terminal is provided with a light turn-on operating means for turning on the room illumination light installed on the patient ~~terminal~~ terminals.

2. (currently amended) A system according to claim 1, wherein said patient ~~terminal~~ terminals are provided with a light control means for controlling a light quantity and/or an illumination angle of the room illumination light installed on the patient ~~terminal~~ terminals, and
wherein said center terminal is provided with a light control operation means for giving an instruction as to a control of a light quantity and/or an illumination angle of the room illumination light installed on the patient ~~terminal~~ terminals.
